In the hectic world that our industry constitutes sometimes problems can get tight. At times you require a particular product or item at short notice without a clue where to source this. In these situations CTS will show its merit. We know exactly where to be source and because of our wide network we will offer the solution concerned against sharp prices in optimum delivery times.
With its wide international network of high quality suppliers CTS is in an excellent position to provide a solution for any supply challenge in the Oil & Gas and Marine industry all over the world. We supply products and systems to many major industrial end users and we have been active in the maritime sector for many years.

We can provide any solution irrespective of type of material, dimension or quantity. We believe that the best solution offers the best combination of price, delivery conditions and service life. It is our goal to continuously improve our performance in order to optimise your total cost of ownership.

Timely delivery. Doing what is promised without surprises. For many years we are the reliable partner of many companies globally in various industries.

Our goal is to understand what the details of each product and solution we supply, therefore we understand what we are talking about and like to share our knowledge. We believe that our industry will benefit from this open and transparent attitude. By sharing and expanding knowledge we aim to contribute to better understanding life cycle costs, which leads to an increased performance of the assets.

Optimise your total cost of ownership.
